January 7, 1991

Trustees give 3-year contract to Olscamp

President Olscamp received a three-year contract from the Board of Trustees at its Dec. 14 meeting which will keep him in the University's top post until 1994.

The decision was made during an executive session and announced when the board reconvened. The vote on the contract was unanimous. "The single most important action that any board of trustees does is the hiring, supporting and firing of a university president," said Richard Newlove, board president. "This action reinforces this board's desire to have Dr. Olscamp continue as president of Bowling Green State University through at least June 1994."

Olscamp became president of the University in 1982. His last contract with the trustees was a five-year contract offered to him in 1986 which went into effect in 1987.

Terms of the new contract were to be worked out between Olscamp and Newlove, who was authorized to finalize the document.

In other business, the trustees approved the naming of the children's theatre program at Firelands College in honor of Caryl Crane, a long-time Sandusky businesswoman and patron of the arts.

The Caryl Crane Children's Theatre will offer a series of classes aimed at introducing the talents necessary to perform in the theatrical arts to children 10 to 18 years old. Courses will include such topics as voice and dialogue, singing style, stage movement, mime, make-up, creative drama and the art of clowning. Intermediate and advanced classes also will be available as students progress. The college's theatre season will include one production of a children's play each spring.

A hazardous waste policy also was given approval at the meeting. According to the policy, its purpose is to assure that the University meets and/or exceeds standards for the handling of hazardous materials as set by state and federal agencies and professional organizations.

The policy defines hazardous materials, wastes and substances, and explains proper procedures for training, purchasing, use, storage, disposal and emergency situations.

The board discussed a proposal submitted by the Faculty Senate on policy and procedures for transmittal of senate resolutions to the board. The trustees agreed to defer the proposal to the president and senate officers so they could "reconfirm and clarify" procedures.

Also on the agenda:

—The board approved an educational personnel budget of \$73.8 million for 1991-92.

—Approval was given to the allocation of \$2.8 million for 1991-92 auxiliary repair/maintenance/improvement projects.

—Dr. Doug Neckers, chemistry and Distinguished Research Professor, and Dr. Lawrence Friedman, history, reported on their recent trip with Olscamp and Newlove to Mendelev University in Moscow. They conducted preliminary work to establish a faculty and student exchange between Bowling Green and Mendelev, which also will result in a "space bridge" televised program.

Artist Tom Gaither of Ludlow, Ky., shows a copy of a watercolor print depicting the University campus to Larry Weiss, associate vice president for University relations and director of alumni affairs. The Alumni Association commissioned the artwork as a "memory piece for students and graduates." The collage of campus scenes includes University Hall, Prout Chapel, Williams Hall, McFall Center, the Student Services Building, Jerome Library and the original Falcon's Nest, which is now located in Portage. Unframed copies of the print are available for purchase from the Alumni Association for \$40 each, plus \$3.50 for shipping and handling. Orders can be placed by calling 372-2701. Prints also can be purchased at the Mileti Alumni Center.

Chemistry department receives \$3,000 for teaching laboratory

The chemistry department has received a \$3,000 gift from DowElanco of Indianapolis which will benefit the undergraduate organic chemistry teaching laboratory.

The gift was presented by Michael P. Lynch, a 1979 master's degree graduate of the University. Lynch is now a research chemist for DowElanco, an agricultural products company. Formed in 1989 as a joint venture between Eli Lilly Co.'s plant science products division (Elanco) and Dow Chemical Co.'s agricultural products division, DowElanco is dedicated to applying science and technology to improve crop yields and controlling damage from diseases and pests.

"We are extremely pleased and grateful for this gift from DowElanco," said Dr. D.C. Neckers, chair of the chemistry department. "The money is very welcome, but we are even more pleased about the recognition of the quality of our undergraduate program. Our relationship with Eli Lilly Co., and now with DowElanco, has benefited quite a number of students at Bowling Green and we look

forward to continuing this relationship. This kind of industrial support of science programs is very important to university science departments."

DowElanco made the gift to the Bowling Green chemistry department as part of its commitment to support university programs which supply DowElanco with significant numbers of employees. During the past 10 years, six Bowling Green chemistry graduates have been hired by the company.

Eli Lilly has previously supported the University. In 1989 Bowling Green received a \$2,000 scholarship for an undergraduate student to conduct a laboratory research project, which includes spending some time in the Lilly Research Laboratories. In 1990 Eli Lilly selected two Bowling Green students to receive scholarships.

Eli Lilly also made a gift to the American Chemical Society Student Affiliate chapter at Bowling Green to be used in alternate years for a book scholarship and for a group visit to the Lilly Research Laboratories.

The Cookie Monster would have been proud

Faculty, staff and students got into the holiday spirit and made "Operation Desert Cookie" a great success. A total of 1,015 dozen cookies were baked, boxed and shipped to the troops stationed in the Middle East.

The project was sponsored by the University Activities Organization, a student-operated group which organizes much of the extracurricular programming on the campus, with the help of about 350 student volunteers.

The goal of the project was to collect 1,000 dozen cookies. Amy Hurst, a sophomore interpersonal and public communication major from Kettering and co-organizer of the drive, said the response was wonderful.

"Student groups got together and baked cookies, but individual students also baked cookies and dropped them off. A large number of community people also baked or made donations to pay for the postage."

The largest number of cookies was donated by the employees in the University's food services operation; they donated 100 dozen.

Each dozen cookies was placed in a zip-lock bag. Included in each bag was a note or letter. "That was one of the nicest parts of the project. Elementary school children in Bowling Green wrote notes to the soldiers. Every bag of cookies had at least one note or letter," Hurst said.

Council wants more respect for classified staff

Disgusted with what they consider to be a lack of respect for classified staff, members of Classified Staff Council are soliciting the help of Faculty Senate. CSC Chair Kathy Eninger reported at the council's Dec. 18 meeting that the Senate Executive Committee is planning to prepare a resolution indicating its support for developing a better climate of respect between faculty and staff and do whatever is in its power to promote a positive campus atmosphere.

CSC pursued the senate's involvement following an incident that took place between a classified staff member and a faculty member at Firelands College. Eninger said the council also is angry with the tone of a letter written by the same faculty member in reaction to a request to include classified employee representation on certain committees at Firelands.

The faculty member's letter questioned why classified staff who are hired for office and/or custodial service should participate in management and/or decision-making areas of the University. The person also accused a classified staff member of coming up with the idea of classified committee representation and had a heated discussion with her. The faculty member later apologized for the incidents to Fireland's College Council, but said he didn't think his remarks had been offensive.

CSC approved a resolution condemning the actions and calling for an apology from the faculty member.

"I think he owes CSC an apology for his slave-plantation attitude and for basically calling us dumb," said council member Bob Kreienkamp. "His apology to the faculty at Firelands College means nothing to us. We have to condemn this attitude or otherwise it will be condoned."

Eninger also said she had found the tone of the faculty member's letter to be insulting and demeaning. She, along with former CSC chairs Kreienkamp and Joyce Hyslop, sent a letter to Firelands noting the accomplishments and success of CSC and urging efforts to eliminate biased attitudes toward classified staff.

In other business:

—Eninger reported that following a meeting with John Moore, executive director of personnel, some modifications have been made to the proposed personal leave policy. The number of accumulated sick leave hours required to use the personal leave was reduced from 120 hours to 100 hours. A classified staff member would be eligible to use personal time whenever he or she accumulated 100 hours of sick leave time.

Eninger said the council would like to see the policy implemented as soon as possible, but there are some details to work out on how to keep records on accumulation of hours. It may be July 1 before the policy can be put into effect.

—CSC's revised discipline policy has been sent to Robert Martin, vice president for operations, and Eninger said three minor wording changes have been made. It also will be examined by Administrative Council and is expected to go to the Board of Trustees for approval in February.

—Eninger explained procedures to follow if a classified employee is called

Black shows in her video that exercise can be for everyone

A video designed to meet the exercise needs of special people, particularly the elderly and the disabled, has been developed by a University professor.

"Let's Move: A Movement Videotape for Persons with Limited Range of Motion," was produced by Dolores Black, HPER, to help people maintain and increase flexibility, endurance, muscle tone, range of motion and heart efficiency.

The video is ideal for persons who may have a special physical condition such as arthritis or an injury that limits their ability to perform complicated or difficult movements.

Unlike most exercise and recreation videos, "Let's Move" does not feature a spandex-attired "supergirl" who jumps up and down to loud pulsating music and shouts out instructions. Instead, the video is set in a comfortable living room atmosphere. Natalie Kehres, habilitation specialist with Wood Lane Adult Services in Bowling Green, is the movement leader. Dressed casually in a shorts outfit, she carefully explains each movement and demonstrates it slowly.

The 28-minute tape features such diverse movements as arm circles, scissor kicks, hand flutters and stretches. The program's versatility allows each viewer to simplify or slow down movements quickly and easily to match individual abilities.

The tape also features demonstrations by four "real people" doing their own versions of the movements. Their ages and abilities vary, and they modify the exercises to fit their own capabilities. One is elderly, another is confined to a wheelchair.

"These are movement experiences that anyone can do," Black says. "The tape stresses the quality of exercise, not the quantity. It's how you do the movement, not how many times, that counts."

"After each movement, the viewer has the option of stopping the tape and continuing the movement before going on. This allows the individual to adjust the length of the program to his or her own physical abilities and to spend additional time on movements they feel are more beneficial," Black explains.

Black's inspiration for the videotape was a friend's mother whose doctor wanted her to exercise more to maintain her physical capabilities.

"No one wants to exercise by themselves," Black said. "We live in a visual world. 'Let's Move' allows the viewer to see appropriate movements demonstrated and receive encouragement from the movement leader."

Louise Priest, American Red Cross administrator and executive director of the Council for National Cooperation in Aquatics, recommends the video as an "excellent and valuable guide for movement programs."

Black's son, Douglas, designed graphics for the video. The tape pauses between movements to show a still figure image of each movement. The figures resemble robots.

"I wanted to avoid attaching a sex or age to the video. This tape is for everyone," she emphasized.

Black is the director of the Saturday Morning Recreation Program for Youth with Disabilities at the University. She is co-author of the book *Movement and Fundamental Motor Skills for Sensory Deprived Children*, and a film titled "Show Me." Earlier this fall she presented "Let's Move" at the 1990 National Aquatic Symposium and Conference in San Diego, Calif.

The video was co-produced by Denise Kisabeth, director at Channel 27, WBGU-TV. Tammy Griffey, a University junior from Aurora, was the student co-producer.

Copies of the video are available from the station for \$35. Checks or money orders should be made payable to WBGU-TV/LET'S MOVE and sent to "Let's Move", WBGU-TV, Bowling Green State University, Bowling Green, Ohio 43403. More information can be obtained by calling the station at (419) 372-2700.

Parents of current students showed their strong support for the University during recent telefunds conducted by the Office of Development. A record \$73,383 in pledges was secured from 2,614 parents during the two weeks of calling, exceeding the development office's goal by 56 percent. Most of the funds were earmarked for the colleges of donors' sons and daughters; some money also was designated for library acquisitions. More than 6,650 parents were called during last semester's telefunds. Another 5,000 parents will be contacted during telefunds this spring.

ASC discusses proposals on personal leave and 125K plan

The Administrative Staff Council wrapped up the semester's business at its December meeting by hearing reports from Chair Gregg DeCrane and from representatives of its committees.

DeCrane said the council's personal leave policy has been forwarded to the personnel services office. The policy, which was passed by the council at its September meeting, calls for allowing administrative staff who have accrued 100 hours of sick leave to convert 16 hours of that leave a year into personal leave when needed. DeCrane said the Classified Staff Council has proposed a similar policy and he and the CSC chair will be meeting with John Moore, executive director of personnel services, to "fine tune" the policy. The council has requested implementation by July 1, 1991.

DeCrane said the council is continuing to pursue implementation of a 125K Plan and the Executive Committee has met with Gaylyn Finn, University treasurer, to discuss it. The plan is one sanctioned by the Internal Revenue Service that allows pre-tax dollars to be set aside for payment of specific items. For example, an administrative staff member could establish an account that would use pre-tax monies to make monthly payments for family coverage of medical insurance. There are several stipulations on the plan's process, but it is designed to save the employee money.

ASC sees implementation of the plan as a matter of administrative procedure and not as a benefit. DeCrane said Finn is

opposed to implementing the plan for administrative staff without a tradeoff of some other benefit. If ASC cannot come to an agreement with Finn, DeCrane said he would consider taking the problem to the Board of Trustees for its consideration.

Dr. Joshua Kaplan, chair-elect, reported on the council's current budget situation. Remaining dollars allocated for the academic year are tight, but are expected to cover the rest of expected expenses. However, he said there will be no carry-over funds for next year and the council may have to devise ways to better conserve next year's budget. Expanded distribution of the minutes to all administrative staff members and publishing of a constituent network book were noted as new expenses for this year.

DeCrane said the \$400 award for the annual Ferrari Award is taken out of the council's budget and he is interested in possibly establishing a campaign to create an endowment fund to support the award. Instead of soliciting funds for the scholarship endowment this spring, there will be a campaign for the Ferrari Award Endowment instead.

In other business, chairs of the council's various committees and subcommittee gave reports on projects they are working on.

It was announced that the second annual Administrative Staff Winter Reception will be held from 3:30-5 p.m. Thursday (Jan. 10) in the Campus Room of the University Union.

Annual Reddin Symposium's speakers to discuss Canada's native peoples Jan. 19

"Canada's Native Peoples" will be the focus of this year's Reddin Symposium to be held from 12:30-5:15 p.m. Jan. 19 in the Milet Alumni Center.

The symposium will open with an overview of the history and legal issues of Canada's Aboriginal peoples presented by Brad Morris, a member of the law faculty at the University of Ottawa. It will be followed by a presentation by Gerry Kerr, regional director general, Ontario Region, Department of Indian and Northern Affairs, on the Canadian federal view on Indian issues. Other speakers include Billy Diamond, chief of the Waskaganish First Nation and former Grand Chief of the Grand Council of Quebec Crees. His topic will be "Aboriginal Rights in Conflict With Development in the North."

A panel discussion including the featured speakers along with James Crowe, Canadian Consulate in Cleveland, and Dr. Edmund Danziger, history, will conclude the symposium.

An afternoon recital will feature Ivan Hammond, musical arts, and his performance of "Canadian Music for the Tuba and

Piano."

This is the fourth annual Reddin Symposium focusing on U.S.-Canada issues. The symposia are supported by a gift to the University from Bowling Green attorneys Evelyn and the late Daniel Reddin.

The free symposium is being sponsored by the Canadian Studies Program and the College of Arts and Sciences. Since seating is limited, interested persons are asked to contact Sylvia Dill at 372-2017 to reserve space.

CSC from the front

to military duty. The staff member should take his or her orders to personnel services where it will be explained how the benefits package and insurance will be handled.

—Deborah Sarver, libraries and learning resources, was appointed to the Ad Hoc Committee on Child Care.

—The council heard a report on worker's compensation presented by Dean Gerkens, manager of the University's worker's compensation service.

Faculty/Staff recognitions

Andreas Poulimenos, music, appeared as Enrico in the Toledo Opera production of "Lucia di Lammermoor" by Donizetti on Nov. 8 and 10. In January, he will appear with the Costa Mesa Opera Pacific's production of "Madame Butterfly" by Puccini in the role of Sharpless.

John Sampen, music, toured with the Black Swamp Quartet Nov. 14-20. Members of the quartet are alumni Kevin Heidbreder and Brian Thomas and students Wes Miller and Susan Cook. The all-20th Century program, including "Evolution V" by Marilyn Shrude, music, was presented at the University of Miami, the University of Central Florida and the University of Florida.

Marilyn Shrude, music, had one of her works featured by New Musicians at the New School in concert entitled "North/South Consonance" on Nov. 6. The concert was presented by the New School for Social Research in New York City.

Herbert Spencer, music, was invited for the eleventh year to teach and perform Nov. 13 to Dec. 8 in Brussels, Belgium. As part of an annual cultural exchange, Spencer taught, performed in a guest recital, performed in a concert series and recorded a compact disc with the Belgian R/T Philharmonic. In addition to these and other activities, he consulted with the Paxman Horn Co. in London.

Thomas Hilty, art, served as panel member on the topic of "Technology, Values, and the Visual Arts: High Tech/High Touch" at the 46th annual meeting of the National Association of Schools of Art and Design, Los Angeles on Oct. 17-20. Also, he participated in a five-person invitational exhibition at Goshen College, Goshen, IN., on Oct. 21 to Nov. 28.

Jack Taylor, multicultural affairs, was a panelist at the Ohio Association of Student Personnel Administrator's fall conference held at Deer Creek State Park. The title of the panel was "On Campus Efforts Toward Minority Retention."

Arjun K. Gupta, mathematics and statistics, has been appointed to the Committee on International Relations by the American Statistical Association. His three-year term will begin in January.

Frances Burnett, music, gave a master class for the gifted young performers at the Longg School of Music on Dec. 8 in Cambridge, MA. It was held in the Edward Pickman Concert Hall, a major venue for concerts in the Boston-Cambridge area.

Robert Thayer, music, attended the annual meeting of the National Association of Schools of Music in Indianapolis, Nov. 14-20. Prior to the annual meeting he chaired meetings of the Association's Committee on Non-Degree Granting Institutions, participated in meetings of the Association's Board of Directors and served as co-chair of a workshop on the NASM Self-Study and On-Site Visitation.

Frank McKenna, political science, has been appointed the regional liaison for the Section on Intergovernmental Administration and Management, American Society for Public Administration, 1990-1991.

Quote is wrongly attributed to senator

In a story on the Faculty Senate's Dec. 4 meeting which appeared in the Dec. 10 issue of the *Monitor*, a quote was misattributed to Senator Steve Vessey. The statement, which was made during a discussion on a resolution proposed by the People For Racial Justice, was not made by Vessey, but should have been attributed to Senator Arthur Darrow.

Reception is planned

Administrative staff are invited to attend the second annual Winter Reception Thursday (Jan. 10). Sponsored by the Administrative Staff Council, it will be held from 3:30-5 p.m. in the Campus Room of the University Union.

Sale on regalia

The University Bookstore will be having a 10 percent off sale on purchased regalia Jan. 1-30. Interested faculty should contact the Bookstore for additional information or to place an order.

Shop's hours change

The Little Shop, located in the University Union, will reopen Jan. 10 and 11 with hours of 9 a.m.-4 p.m. Regular store hours of 8 a.m.-4:45 p.m. Monday through Friday will resume on Jan. 14.

Faculty/Staff publications

Fujiya Kawashima, history, "Choson sidae sonbi e taehan yon'gu" [A Study of the Sonbi During the Choson Dynasty], *Han'guk Hak Yon'gu* [Korean Studies], March 1990.

Gary Hess, history, "The Emergence of U.S. Influence in Southeast Asia" in *American Chinese and Japanese Perspectives on Wartime Asia, 1931-1949*. Also, "The American Search for Stability in Southeast Asia: The SEATO Structure of Containment" in *The Great Powers in East Asia, 1953-1960*.

Frank McKenna, political science, co-authored a chapter entitled "Transportation Policy in the United States" in *International Handbook of Transportation Policy*, 1990.

Bruce C. Klopstein, radio-television-film, and David Sedman, University of Arkansas, "Technical Standards and the Marketplace: The Case of AM Stereo" in *Journal of Broadcasting & Electronic Media*, Spring 1990. Also, "Audience Measurement in the VCR Environment: An Examination of Ratings Methodologies" in *Social and Cultural Aspects of VCR Use*, 1990. Also, co-authored with Douglas Ferguson, radio-television-film, "Conducting Telephone Survey Research for the Student-Operated College Radio Station" in *Feedback*, Fall 1990.

William O'Brien, psychology, co-authored "Measurement of Post-Stress Recovery in Psychophysiological Assessment" in *Psychological Assessment: A Journal of Consulting and Clinical Psychology*. Also, co-authored "Functional Analysis in Behavior Therapy" in *Clinical Psychology Review*.

Kenneth Jones, psychology, co-authored "Analysis of Cardiovascular Reactivity in Mathematics Anxiety," in *Psychophysiology*.

Jeffrey J. Gordon, geography, co-authored "Comparison of Academic Performance of Settled-Out and Mobile Migrant Children in Northwest Ohio," in *The Ohio Journal of Science*, September 1990. Also, authored "One Doctor's Current Prognosis" in *Transition*, Winter 1989/1990.

Peterann Siehl, educational foundations and inquiry, co-authored "From Elementary to Middle School: Suggestions for a Comprehensive Orientation" in *Middle School Journal*, January 1990.

Leslie J. Chamberlin, professor emeritus of educational administration and supervision, "Our Children Are Changing" in *Educational Leadership*, reprinted in *Cooperative Learning*.

John Hoag, economics, and M. Neil Browne, Distinguished Teaching Professor of Economics, "The Formative Use of Student Evaluations of Teaching: An Empirical Demonstration of the Incompleteness of Global Ratings" in *The Journal of Economics*, 1989.

Nancy Mueller, graduate college, "Beating the Paper Glut: Authoring Systems Can Replace Hard Copy in Many Situations" in *Computerworld*, Sept. 24, 1990.

Bartley A. Brennan, legal studies, "Foreign Corrupt Practices Act Amendments of 1988: Death of A Law," in *Selected Proceedings of the Pacific Southwest Regional Business Law Association*, Aug. 28.

Deanna J. Radeloff, applied human ecology, "Role of Color in Perception of Attractiveness" in *Perceptual and Motor Skills*.

Conrad Pritscher, educational foundations and inquiry, "The Question of National Board Certified Teachers" in *Journal of the Ohio Elementary Kindergarten Nursery Educators*.

Judith Cassidy, education curriculum and instruction, co-authored "Teaching Writing and Affecting Attitudes Toward Teaching and Learning" in *Journal of the Ohio Elementary Kindergarten Nursery Educators*.

Larry Smith, English and humanities at Firelands College, has published an article on Thomas Parkinson in a recent issue of *Contact II*. He also recently has published poems in *Coventry Reader*, *Crazy River*, *Mark and Pig Iron's "Labor and the Post-Modern Age"*.

Robert L. Perry, ethnic studies, wrote the chapter "Differential Dispositions of Black and White Juveniles: A Critical Assessment of Methodology" in *Black Studies: Theory, Method and Cultural Perspectives*, edited by Talmadge Anderson, Washington State University Press, 1990. Also, with Joseph W. Scott of the University of Washington, he co-wrote "Do Black Family Headship Structures Make a Difference in Teenage Pregnancy? A Comparison of One-Parent and Two-Parent Families" in *Sociological Focus*, February 1990. Also co-wrote with Scott, "Black Family Headship Structure, Parent-Child Affect, Communication and Delaying Teenage Pregnancy" in *National Journal of Sociology*, Spring 1990.

Faculty/Staff presentations

Kyoo H. Kim and James R. Ostas, both of economics, "Central Bank Monetary Strategies Examined With Consistent Conjectural Variation Analysis" at the Western Economics Association meeting, June 30-July 3, San Diego, CA.

David V. Gedeon and Sudershan K. Jetley, technology systems, presented "Applying Machine Vision" to the International Electrical Manufacturing & Coil Winding Conference, Rosemont O'Hare Exposition Center in Chicago on Oct. 16. Also, Gedeon presented "Distributed Control System Technology For Integrated Manufacturing to the National Association of Industrial Technology" in Dearborn, MI on Oct. 5.

Harold Fisher, journalism, presented "Western Dominance in Communication Technologies: Problems and Ethical Dilemmas for Developing Nations" to the 16th Annual Third World Conference, St. Louis, MO, on April 5-7. Also presented "Needed: Improved National Communication Development Policies" and "Treatment of the Press in Two Democracies" to the 13th National Third World Studies Conference at the University of Nebraska at Omaha, Oct. 4-6. Also, he served as discussant of refereed paper session on "Policy Issues in International Communication," at the 73rd Annual Convention of the Association for Education in Journalism and Mass Communication, Minneapolis, Aug. 9-12. Also, discussant of refereed paper session on "Information and Technology Issues for the Third World," in the 13th Annual Third World Studies Conference, University of Nebraska at Omaha, Oct. 4-6.

Cliff Long, mathematics and statistics, presented "Geometric Interpretation of an Ill-Conditioned Matrix" and Thomas Hern, mathematics and statistics, presented "The Image of the Unit Circle" to the fall meeting of the Ohio Section of the Mathematical Association of America at Marietta College, Oct. 19-20.

Janet Ballweg, art, presented 20 paintings, prints and drawings in a two-person exhibition in New Harmony, IN, from Oct. 7 through Nov. 14, at the New Harmony Gallery of Contemporary Art.

Joseph G. Spinelli, geography, presented "El Salvador's Agrarian Reform Re-Evaluated" to the 1990 Annual Meeting of the East Lakes Division, Association of American Geographers, held at Brock University, St. Catharines, Ontario, Canada, Oct. 12-13. Also "Displaced Persons and Refugees in El Salvador's Civil War" to the West Lakes Division Meeting, Association of American Geographers, at Northern Illinois University, DeKalb, IL, Oct. 26.

Faculty/Staff grants

Mary Ellen Newport, biological sciences, \$18,000 from the National Science Foundation, for the use of *Drosophila* genes to investigate the development and molecular biology of vertebrate systems.

Bruce Klopstein, radio-television-film, \$9,109 from the State of Ohio Office of the Consumer's Council, to furnish the OCC with expert support. Also, \$12,444 from the same source to furnish the OCC with technical support, including analysis of marketing research, and a statewide survey of Ohio consumers to determine both the potential impact of the service and public attitudes about the service.

Ernest Savage, visual communication and technology education, \$25,000 from the Ohio Department of Education, to help all 25 model school sites involved in changing their industrial arts programs toward the technology education program design during the 1990-91 school year. Also, \$7,500 from Owens Technical College, for partial support of one graduate student to be assigned to Owens Tech.

Conrad McRoberts, student financial aid, \$531,462 from the U.S. Department of Education to give to students who are in "exceptional financial need" a designated amount of the Supplemental Education Opportunity Grant. Also, \$2,260,270 from the same source to give students the Pell Grant. Also, \$576,558 renewal from the same source to grant eligible University students workstudy.

George S. Butlerjahn, biological sciences, \$68,600 continuation from the National Science Foundation to continue research employing the antenna proteins of *P. Hollandic* to probe the structural basis for membrane stacking in this only free-living bacterium known which contains the higher plant antenna pigment, chlorophyll.

Michael Moore, continuing education, \$10,534 renewal from the Ohio Arts Council to help fund 25 teaching artist residencies in schools, at an average cost of \$450 per residency.

Frank Bosworth, visual communication and

27. Also, "An Assessment of the Quality of Age Reporting as a Measure of Accuracy of International Census Data: The Whipple Index" to the 1990 Annual Meeting of the National Council for Geographic Education, at Williamsburg, VA on Nov. 7-9.

Charles Jacobson, history, presented "Ownership and Infrastructure: An Historical Perspective on Some Contemporary Choices" to the meeting of the Association for Public Policy Analysis and Management in San Francisco, CA on Oct. 20.

Sue Graziano, legal studies, presented "Malpractice - Expansion of the Tort to Include Computer Professionals and Clergy," to the 61st Annual Meeting of the American Business Law Association, Toronto, Aug. 18.

Nancy Kubasek and Brent Nicholson, legal studies, presented "Potentially Responsible Parties Under CERCLA: Should Parent Corporations and Successors-in-Interest Be Liable?" to the American Business Law Association Meeting, Toronto, Aug. 17.

James Forse, history, presented "The Very Human Shylock" to the Carolinas Symposium on British Studies, in Boone, NC, Oct. 20-21.

Lawrence Daly, history, presented "Julian's Apostasy: Neither Christian Nor Pagan" at the meeting of the Classical Association of Atlantic States, at Princeton University, Oct. 12.

Jack Thomas, history, presented "United States Ambassador to Chile Claude Bowers and the State Department During World War II" to the Meeting of the Midwest Association for Latin American Studies, Cincinnati, Oct. 12-13.

James Litwin, institutional studies, presented remarks and chaired a panel on surveys of faculty in Ohio colleges and universities at the fall meeting of the Ohio Association for Institutional Research on Oct. 25 in Columbus.

Anna Belle Bogner, music, presented two sessions for the West Virginia Music Teachers Association summer conference in June. The first session was Music Technology in the Piano Studio and the second was The First-Year Piano Student.

Paul Hunt, music, performed as the featured guest trombone soloist with the Lima Area Concert Band on Sept. 15.

Mark S. Kelly and Jay Jackson, music, and the Falcon Marching Band performed in the Detroit Silverdome Sept. 16 during the Lions game and performed as the feature band at the Bowling Green High School Band Festival.

technology education, and John Erlon, technology systems, both \$9,949 from the City of Bowling Green to determine the best use of space for the City Administration Building.

Catherine H. Stein, psychology, \$36,847 from the Ohio Department of Mental Health, to combine social skills training with network methods to help participants develop and strengthen social relationships by enhancing their social competence.

Michael Moore, continuing education, \$3,453 (renewal) from the Ohio Arts Council, for funding to help underwrite the fees and related expenses of presentations by the Metro Children's Theatre of St. Louis, the Joseph Holmes Dance Theatre of Chicago and musicians Roger Greive and Tim Story of Toledo.

Charles Johnson, graduate studies in business, \$5,000 (renewal) from the Clement O. Miniger Memorial Foundation, for stipend and general fee support for designated Miniger scholar, Rhonda Anaya, full-time graduate student in the MBA program.

Don Bright, business education, \$261,500 (renewal) from the Ohio Department of Education, Vocational and Career Education, for continuation of the Personnel Development Center for the Ohio Northwest Region.

Jacqueline Nathan, art, \$3,586 from the Ohio Arts Council to curate and present the exhibition "Myth and Reality: Objects and Imagery of the Black Swamp" in the Fine Arts Gallery. Also, \$4,776 from the Ohio Arts Council for the visual arts component of the 11th Annual New Music and Art Festival.

College of Musical Arts received a \$5,609 grant from the Ohio Arts Council to help support the presentation of the 1990-91 Festival Series.

Know University procedures for bad weather

In the event of severe weather, any decision to cancel classes will be communicated to faculty, staff and students by the Office of Public Relations, which will notify Fact Line (372-2445), WBGU-FM, (88.1), WFAL-AM (680), WFOB, WOHO, WSPD, WCWA, WLOR-FM, WRON-FM, WFIN and WGTE. Also, WBGU-TV (Channel 27) and the three Toledo television stations, channels 11, 13 and 24 will be notified.

Every effort will be made to notify these media by 7 a.m. the day of any cancellation. If a later storm necessitates the cancellation of afternoon or evening classes, the public relations office will notify the above-named media as soon as possible and before 5 p.m.

Though classes may be cancelled, all University employees are expected to report to their job assignments unless a specific announcement cancelling work schedules is made.

Also, employees should not be confused by media reports of the University "closing." Broadcasts often report "Bowling Green is closed," rather than correctly stating "classes are cancelled at Bowling Green."

The University closes only in times of state emergency. If an emergency is declared necessitating a closing of the entire University, only essential employees are expected to report to or remain at their jobs. Classified employees, specifically advised in advance or called in specifically for the emergency, will be paid at the rate of two-and-one-half times the normal rate of pay for all hours worked during the declared emergency period.

Questions relating to a radio or television announcement concerning cancellations or closings can be clarified by calling the campus operator (372-2531).

Also, during bad weather Fact Line will be doubling its staff to handle increased phone inquiries.

Commuter students who may be affected by severe weather should check with the State Highway Patrol to determine if hazardous driving conditions exist.

If travel is not advised, students who must commute to Bowling Green will be excused from classes without penalty. Upon return to each affected class, the student should inform the faculty member of his or her inability to travel due to hazardous driving conditions.

Make a healthy New Year's resolution

This is the time of year people are making resolutions and many of those include losing weight or getting in shape. To help achieve these goals, the Out-To-Lunch-Fitness-Bunch and Pre-Dinner-Winners exercise programs will be offered by the Student Recreation Center.

The programs invite faculty, staff and administration to join in a pre-packaged, noon-time or 5 p.m. exercise program that offers counseling and supervision. Cost of the package is \$75 and includes membership to the center, a Fitwell assessment, a Fitwell t-shirt and post-program assessment. Participants in the 10-week program can choose from exercise options such as walking, swimming, running, cycling, swim aerobics, aerobics, the ladder climb or using the aerobic stairmaster or rowing machine.

Enrollment is limited to the first 50 registrants. For more information, contact Dr. Terry Parsons at 372-7481 or Dr. Richard Bowers at 372-7485.

Staff members unable to participate in the programs may want to enhance their health by joining the center for \$60 for a spring membership and having a Fitwell evaluation conducted for \$30. For more information, contact the center at 372-2711.

Permanent classified positions are filled

The following individuals joined the permanent classified staff during October:

Lori Stewart, part-time, food service worker, food operations; **Linda Palmer**, academic year part-time, food service worker, food operations; **Marilyn Lafer**, part-time, cashier 1, food operations; **Karen Masters**, word processing specialist, planning and budgeting; and **Janet Wilhelm**, account clerk 3, Philosophy Documentation Center.

Fax to the Union

Friday, Jan. 11

WBGU-TV Program, "The University

No, this shoe doesn't belong to Big Foot, but it was made to be worn by the world's tallest human. The shoe now belongs to the parents of Faith Olson, academic area budgets, and she recently brought it into the office to show co-workers. Her grandfather worked for the shoe company that made the size 34D shoe (shown in comparison to photographer Jeff Hall's size nine shoes) in 1940 for Robert Pershing Wadlow of Alton, Ill. However, by the time the shoes were completed, Wadlow's feet had grown too big to wear them. When he died in 1940 at the age of 22, Wadlow was eight feet, 11 inches tall and weighed 439 pounds. He is listed in the Guinness Book of Records as the tallest man who ever lived. The black leather shoe is 18 1/2 inches long, 8 1/2 inches tall and weighs about five pounds. Olson's family has had the shoe for approximately 40 years, but the whereabouts of the matching left shoe are unknown.

New employees join staff, change jobs

Individuals recently taking new positions with the administrative staff include **Marcia Ward**, part-time research assistant, psychology; **Catherine Shaffner**, part-time educational coordinator, medical technology; **Karen Matheny**, part-time assistant to the director of PATCO, College of Education and Allied Professions (formerly classified); and **Chris Gelb**, director of academic and regulatory affairs, intercollegiate athletics.

Also, **Monica Smith-Scott**, director of multicultural student activities, multicultural affairs; **Gregory Ross**, director of special programs, multicultural affairs; **Timothy Smith**, director, promotion and public relations, WBGU-TV; **Paul Obringer**, graphic designer, University Graphic Arts Services; **Alverta Rea**, animal research technician, animal research facilities; **Jo-Ann Sanders**, assistant to manager of records, personnel services; and **Gary Blackney**, head football coach, intercollegiate athletics.

Forum, explores the world of ideas with experts from the University and special guests visiting the University, 5:30 and 11 p.m., Channel 27.

New fax available

Computer services has installed a fax machine in 315 Administration Building which is available for use by the general public. There is no charge to use the machine other than the cost of the phone call itself.

The machine is connected to a restricted telephone line, which means that it is necessary to enter a "BG Call Card" authorization number in order to transmit a document.

Persons interested in using the machine should go to the Data Control Window in 313 Administration Building for access.

Obituary

Dottie Rose

Dottie I. Rose, 74, a former employee of the University, died Dec. 12 in her Bowling Green home.

She joined the University's staff in 1957 as a telephone operator and retired in 1977. She had previously worked for Northern Ohio Telephone Company.

Memorials may be made to the American Diabetes Association.
